Seminar – design of COLD FORMED STEEL

Wednesday 20th July 2022

3.00pm – 9.15pm

Cold formed steel framing is increasingly being considered for many different types of low and mid-rise construction projects.

The behaviour & design of cold formed steel members and connections will be covered.

Design aids, including NASH standards, will be covered. We will have a cold-formed steel fabricator's perspective on design, detailing & installation. We will also review case studies to illustrate some of the practical issues when designing buildings with cold-formed steel.

Venue:

Box Hill Golf Club

202 Station St, Box Hill South, 3128

Limited places available

Registrations (see page 2)

CLOSE on Thursday 14th July '22

Suitable for all levels of experience.

A basic knowledge of steel design is assumed.

Handout material may be provided.

SESSIONS:

- A. Early Afternoon session**
- B. Late Afternoon session**
- C. Drinks & Dinner**
- D. Evening Session**

OPTIONS: A or B or A&B or A,B&C or A,B,C&D or C&D or D

Guest presenters include:

Ken Watson

Professor Mahen Mahendran

John Shayler
